

New Faces in the Sage Community
 With a School Improvement grant, Sage added two paraprofessionals to the staff. Regina Dohman is implementing the Primary Reading Intervention Program and organizing our new library. Chuck Dabill is implementing the Reading Intervention Program in grades 3-6. Both are invaluable and offer so much to the school community. Welcome!!

Dates to Remember

- 15 th NO SCHOOL—staff inservice
- 18 th NO SCHOOL—President’s Day
- 28 th LATE START (10 am)

Chili Feed & Bingo Night

Hosted by Sage
 Chiloquin Community Center
 Thursday February 21 @ 6 pm

Sage’s Library opens February 14th

Holiday Program: Kindergarteners display festive costumes from the Himalayas.

School Community Assembly

Each student was recognized for a special gift they bring to Sage. Sage also kicked off the “Wise Kids” program acknowledging good character based on: **Positive Attitude; Self-Discipline; Conflict Resolution; Relationships; Personal Goals; Citizenship; Responsibility; and Respect.**

CLASSROOM HAPPENINGS

Kindergarten - Ms. Jennifer Lynn

Kindergarten had a great January. We worked on the letters o, f, and h. We are starting to add numbers together. We celebrated Vincent birthday and made fish and flowers. We also worked on our mountain animals and measured the snow fall. We had a great time and learned many things.

“The Eagles” Grade 1 /2—Ms. Bridget Baril

We have had a great winter term. We have been learning about mountain animals and Native American Rock Art. We have also been practicing addition and subtraction. Ms. Regina just started learning sign language.

Grade 3 / 4—Mrs. Lori Fisher

We are learning about U.S. Geography and the agricultural products sold in each state. We finished a great read-aloud, Matilda, and made wonderful tri-a-ramas, showing scenes from the book. 3rd grade is learning about multiplication and 4th is working with fractions and division. We are having great fun in P.E.—we’ve set up gymnastics circuit in the “multi-purpose room”.
 Wow are these kids talented!

Grade 5 / 6—Mrs. Marla Hanlon-Abeita

We are studying fractions, so think fractions with your student when eating pie or pizza (1/4, 1/8 ...). When your student brings their thermometer and rain gauge home, please assist them in remembering to check both and record the information. Thanks for all the help at the Holiday Program and for helping students study at home.

Have books to donate to Sage library? * * Donations can be brought to the office..
